Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), a communication unit, adapted to perform non-email-based facsimile communication via the Internet and e-mail-based facsimile communication via the Internet; a first registration unit adapted to register a signal delay time to a receiving destination; and a controller adapted to select either a non-email based facsimile communication mode or an e-mail based facsimile communication mode in accordance with a registered signal delay time, and to cause the communication unit to execute a facsimile communication in accordance with the selected facsimile communication mode, wherein the controller selects the e-mailed based facsimile communication mode when the registered signal delay time for a receiving destination is equal to or longer than a predetermined time, and selects the non-email based communication mode when the registered signal delay time for the receiving destination is shorter than as the predetermined time as claimed in claim 15. Similar features are claimed in claims 19 and 23. Therefore, claims 19 and 23 are allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
